

Bring Your Own Device to School

Choosing the right device for your child just got easier

Today, students from kindergarten to Year 12, are using technology to improve how they learn, interact, share and grow – whether in the classroom or at home.

Many schools are choosing Bring Your Own Device (BYOD) programmes to give parents easy access to the education tools their child needs.

Schools select the devices that will support the learning needs of their students, and work with JB Hi-Fi Solutions to ensure the right range, specifications and pricing is available in one single place.

Parents can then confidently choose the right device for their child online from the comfort of their home, and have it safely delivered to the location of their choice.

BYOD Made Easy

As a parent, you don't have to be a technology expert to choose the right device for your child.

The Education Team at JB Hi-Fi Solutions works with schools and technology partners to create customised Bring Your Own Device (BYOD) programmes that provides parents with the right tools, devices and pricing to support your child's learning and growth.

Our BYOD online portal provides a simple way to get everything your child needs in one place, including:

- Specialised range of products approved by your school
- High performance and robust devices specifically designed for education
- Special discounted pricing
- A range of high-quality accessories
- Extended warranty, plus options for insurance and finance
- Easy online ordering 24/7 with no credit card fees
- Fast contactless delivery options
- Support 6 days a week from 9am AEST
