

CERTIFICATE II IN HEALTH SUPPORT SERVICES (HLT23221)

CERTIFICATE III IN HEALTH SERVICES ASSISTANCE (HLT33115)

These certificates are run in partnership with IVET (RTO Code: 40548) providing students with basic skills for a career in allied health as well as providing a pathway for those wishing to pursue further studies in this field

Upon successful completion of the Certificate II in Health Support Services in Year 11, students can continue to study the HLT33115 Certificate in Health Services Assistance in Year 12. Students will receive recognition for units of competency already completed as part of the Certificate II studied in Year 11 that form part of the Certificate III.

Students have access to a purpose build online simulated workplace via the 'IVET Super Clinic' which is an integral facet of the learning and assessment process immersing students in current industry practices, regulations and policies that are implemented in the Health Service Industry.

Students engage in theoretical and practical skills across the following learning areas: Australian healthcare system, interpreting and applying medical terminology, healthy body systems, assisting with movement, communicating with clients, and infection control and prevention. Students also have the opportunity to engage in work placement.

Refer to Appendix for course module details
